DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1 – 13, drawn to a light-refracting, color-enhancing coating composition, classified in class 106, subclass 241.
 - II. Claims 14 – 17, drawn to a process for applying a light-refractive, color-enhancing coating to a substrate, classified in class 427, subclass 163.4.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as product and process of use, respectively. The inventions can be shown to be distinct if either or both of the following can be shown:

(1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case, the product as claimed can be used in a materially different process of using that product, such as (1) a process in which the composition is applied by roll coating, dip coating, spin coating, etc. (i.e., not a spraying process), (2) a process in which the composition is UV-cured (i.e., not heated to evaporate any volatile solvent and cured by drying), or (3) a process in which the composition is molded into a solid article, not coated / sprayed onto a substrate.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and

Art Unit: 1762

recognized divergent subject matter, restriction for examination purposes as indicated is proper.

4. A telephone call was made to Mr. Thomas Tully on 10/20/2003 to request an oral election to the above restriction requirement, but did not result in an election being made.
5. Applicant is advised that the reply to this requirement, to be complete, must include an election of the invention to be examined even though the requirement may be traversed (37 CFR 1.143).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Wesley D Markham whose telephone number is (703) 308-7557. The examiner can normally be reached on Monday - Friday, 8:00 AM to 4:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Shrive Beck can be reached on (703) 308-2333. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-0661.
